## **DETAILED ACTION**

### ***Election/Restriction***

1. Applicant's election without traverse of Group I, claims 26-29 is acknowledged.

### **Specification**

2. Claim objected to because of the following informalities:

Appropriate correction is required. The title of the invention is not descriptive.

3. A new title is required that is clearly indicative of the invention to which the claims are directed.

### ***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 26-29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is unclear which element has the different diffusion-soldering system than the soldering-system alloy of the solder joints.

Claim 26-29 recites the limitation "the solder joints". There are insufficient antecedent basis for these limitations in the claims.
